Jacqueline S. Addison, age 47 of Kenosha, died unexpectedly at United Hospital Systems - Kenosha Hospital Campus on Tuesday, September 16, 2014.

Born in Kenosha on February 18, 1967, she was the daughter of Harold "Buzz" and Patricia (Lindner) Addison. She attended local schools and was a graduate of Reuther High School. Jacqueline attended Gateway Technical College where she proudly received her Certified Nursing Assistant Certification.

In 2002, Jacqueline began employment as the staffing coordinator with Kindred Care North, currently Waters Edge Rehab and Care Center. She was always willing to pitch in and lend a helping hand.

Jacqueline had a fondness for animals and enjoyed biking, walking, dancing, singing, and spending time with her family. She selflessly organized many fund raisers for others in need.

Jacqueline will always be remembered by her parents, Harold "Buzz" and Patricia Addison of Kenosha; her three children, Brittany, Max and Luke; her three brothers, Doug (Dawn) Addison of Kenosha, Terry Addison of Jacksonville, FL and Michael Addison of Kansasville, WI; her former husband, Frank Hagopian; and her loving nieces and nephews.

She was preceded in death by her maternal and paternal grandparents.

I am so sorry for your loss. It came as a huge shock, and I want you to know my families thoughts and prayers are with yours. Your mom always had a kind word to say about everyone she met and I can tell what a wonderful mother she was by the way all her children have grown up to be as kind and respectful as she was.

Jackie was a spitfire, a selfless giver who wanted peoples/animals lives to be better and wanted nothing in return. You could always count on Jackie, the ultimate of team player. Oh how she absolutely adored Brittany, Max n Luke. She said numerous times that she would love it if her kids would always live with her. She frequently commented how she loved being with her kids. With how the world is today, God really needed the ultimate of Angels, Jackie's name was called home, eventhough we weren't ready for that to happen. I will miss her humor, her determination, her love of chips (with onion dip of course), her "Jackieism's"... "Loser", "Silly Goose", "Stupid Idiot", the love and relationship with her "Sister's" Rane, Regina and Victoria. The loss of Jackie has re-taught us the lesson of how precious life is and that we needn't sweat the small stuff. How lucky am I to be able to know Jackie for 3 years. She made an irreplaceable positive impact on my life. I will strive to live my life more like Jackie. Jackie "Madison" Addison, I loved being your work buddy. I will miss you! RIP, God Bless!!

Brittany, Max and Luke, My name is Steve Kawa and my brother is a patient at Waters Edge Nursing Home. For the last 2 years your mom and I had to deal with my brother's transportation problems back and forth to Dr.visits, Hospitals, etc. Though never actually meeting Jackie in person for the longest time, we quickly became "phone friends" and I learned that I could count on her for anything, and I mean anything. She was my favorite person at Waters Edge and always went out of her way for me. As a matter of fact, just this morning I was about to call her to confirm next Tuesdays appointment for my brother when the phone rang and a rep from the nursing home gave me the unbelievable news. I'm still in shock and feel like I lost a wonderful friend. My wife and I are very sorry for your loss. As siblings of a great mother I hope and pray that you three lean on each other for strength and know that your mom was a wonderful person.

Extending heartfelt condolences for your loss. One of the Proverbs says "a joyful heart is good medicine", therefore, in time may precious memories bring more smiles than tears, and may those memories bring you joy and warm your heart. Take comfort in God's promise that soon "death will be no more", and Acts 24:15 which holds out the hope of the resurrection of those who have fallen asleep in death. May Jehovah, "the Father of tender mercies and God of all comfort", comfort you in your time of need.
